

Client Assessment:

Greater Hudson Valley Family
Health Center
Newburgh, New York

Submitted by:
Marianne Buck
Director of Human Resources
Greater Hudson Valley Family Health Center
Newburgh, New York

Merritt Hawkins is proud to have been selected as the National Association of Community Health Center's (NACHC's) preferred partner for permanent physician placement. Through this relationship we have had the opportunity to work with Federally Qualified Health Centers (FQHCs) nationwide, assisting them with their mission to bring quality, accessible healthcare to traditionally underserved populations. In the following client assessment, Marianne Buck, Director of Human Resources for The Greater Hudson Valley Family Health Center in Cornwall, New York, discusses how Merritt Hawkins partnered with her center on a successful physician recruiting program.

"We selected Merritt Hawkins to work with us on a search for an Addiction Medicine Specialist and an Internist."

"We were facing a small candidate pool, but Merritt Hawkins was able to produce quality, experienced candidates for a very difficult search. I was able to place a physician position at my FQHC that had been otherwise vacant for over a year."

"In analyzing Merritt Hawkins' strengths, I would point to the access they have to the right candidates through a national sourcing system, their ability to communicate our opportunity to those candidates, and the responsiveness of our recruiting consultant."

"I have worked with a contingency search firm in the past but I had more interaction with Merritt Hawkins."

"I can highly recommend Merritt Hawkins for recruitment efforts as they have access to a large pool of candidates and are dedicated to fulfilling opportunities as quickly as possible."
